

UPDATE: ISTC Response to the Coronavirus (COVID-19) Situation

Industrial Safety Training Council (ISTC) Management continues to work closely with local officials, industry professionals, and healthcare personnel to ensure we remain prepared to respond to the Coronavirus (COVID-19) as the situation evolves. In order to ensure the safety of our customers, visitors, and employees, ISTC has decided to transition training operations to our ISTC Distance Learning platform (online training). This change will go into effect at 4:00 pm (CST) today. This transition will allow us to cease training operations at our brick and mortar facilities to further protect our community.

ExxonMobil Proximity Badging will remain open at the ISTC Beaumont location. Individuals will be required to sign in at the self-check-in kiosk. Once the individual signs in, they will be required to wait in their car until they receive a text message to enter the building and retrieve their badge (two trainees allowed in trailer at one time in order to comply with the social distancing guidelines). All individuals arriving to ISTC for their ExxonMobil proximity badge will be subject to the following procedures:

- Limited access to ExxonMobil Proximity Badge trailer:
 - Facility access only available between the hours of 6:15 am and 4:15 pm
- Medical questionnaire is required prior to accessing the ExxonMobil Proximity Badge trailer
- Temperature screening is required prior to entry
 - Temperature reading of 100.4° or above will not be allowed access to the facility (no exceptions). They will be referred to their employer for guidance.

Please contact ISTC personnel if you need specific information on which sites are available on our Distance Learning platform. ISTC will return to normal operations once it is determined that a threat no longer exist.

If you have any questions regarding our protocols, please contact ISTC Customer Service at (409) 724-2565.

Thank you for your continued support of ISTC.

Respectfully,
ISTC Management
