

ISTC Student Cheating Policy

Every test administered to a student at ISTC is preceded by one or both an oral or visual presentation.

To ensure the integrity of the ISTC Basic Plus Program, all Site Specific programs and all other program testing, cheating in any way (speaking or writing) by a student cannot and will not be tolerated. With this in mind, the following policy is set forth:

Any student observed cheating by an ISTC Employee will be immediately removed from the class, marked "fail tested" and be suspended from training for 30 days. Any materials associated with cheating will be seized by the ISTC employee and forwarded to the President & CEO. A student caught in the act of cheating in any way should be reported immediately to the President & CEO.

The President & CEO will notify the student's employer of the behavior and the action taken.

The ISTC Employee is required to submit a report on the incident to the President & CEO within 12 hours after the incident occurs.
