

ISTC is working diligently to evaluate operations that reflect industry demand and follow state and county mandates. ISTC locations have implemented the following COVID-19 precautionary measures:

- Temperature screening upon entry.
- Onsite class size has decreased to ensure social distancing is in place.
- Increased janitorial services to ensure all high traffic areas and equipment are thoroughly disinfected.
- Increased hand sanitizer and hand washing stations placed throughout all ISTC facilities.

For those scheduling courses at a brick and mortar facility during this time, please ensure that clear communication is delivered to trainees to arrive only at the designated arrival time for the enrolled course. Limited access will be available due to COVID-19 social distancing protocols.

The ISTC Distance Learning platform (online training) is fully operational and has proven to be a robust and helpful training resource, available 24/7 for all the industry facilities we currently support. Any facility interested in adding courses to this platform should send approval to Shandi Conner, Director of Client Relations (shandi@istc.net) or Katie Celli, Assistant Director of Client Relations (katie.celli@istc.net) and the site specific will be published to this platform.

Prime Occupational Medicine services continue to be available at both ISTC locations.

During this time, we continue to strive to provide the highest quality service to our community through excellence in training and compliance. Thank you for your support of ISTC.
