

# SmartStorm

POWERED BY **ISTC**

The Industrial Safety Training Council is pleased to offer **SmartStorm**, a disaster response community impact initiative produced in partnership with Lamar University Center for Resiliency and Voluntary Organizations Active in Disaster (VOAD). This learning portal, available to the community via distance learning technology, will provide useful and critical information for preparing for and coping with the effects of Hurricanes, floods, and damaging weather.

## Courses Available

---

### **Smart Storm Preparedness - Tier 1:**

Simple steps for how to prepare for storm emergencies during times of uncertainty. *(Course length is 10 minutes)*
